

CHAIRMAN OF THE JOINT CHIEFS OF STAFF INSTRUCTION

J-8

DISTRIBUTION: A, B, C, J, S

CJCSI 5123.01D

1 August 2007

CHARTER OF THE JOINT REQUIREMENTS OVERSIGHT COUNCIL

References: See Enclosure B.

1. Purpose. This instruction implements the program established in reference a for the Joint Requirements Oversight Council (JROC). It establishes and empowers the JROC as an advisory council to the Chairman of the Joint Chiefs of Staff. This instruction delineates JROC composition and responsibilities and further defines the JROC role in the capabilities and acquisition process.
2. Cancellation. CJCSI 5123.01C, 9 November 2006, "Charter of the Joint Requirements Oversight Council," is canceled.
3. Applicability. This instruction applies to the Services, Joint Staff, combatant commands, Defense agencies, Functional Capabilities Board (FCB) membership (contained in reference b), joint activities, and agencies reporting to the Chairman of the Joint Chiefs of Staff.
4. Policy. Reference a, by law, establishes the JROC. This instruction is the principal document within the JROC structure, to include the CJCSI 3137.01 and CJCSI/M 3170.01 series, and provides overarching guidance. It is the foundation for all related and supporting JROC efforts within the Joint Capabilities Integration and Development System (JCIDS), including the FCB and the Joint Capabilities Board (JCB).
5. Definitions. See references b, c, and d.
6. Responsibilities. As the capstone document within the JROC process, this instruction focuses solely on the responsibilities of the JROC proper, its direct support sub panels, FCBs, JCB, and its direct support staff. It is beyond the scope of this instruction to outline the functions and responsibilities of every organization that interfaces with the JROC process. Other instructions and

1 August 2007

documents, such as those noted in Enclosure B, detail responsibilities and procedures for other organizations that support the JROC process.

7. Summary of Changes. Changes to this instruction add responsibilities to the JROC to address or avert Nunn-McCurdy breaches and adds the Office of the Director of National Intelligence to the list of organizations with a standing invitation to the JROC.

8. Releasability. This instruction is approved for public release; distribution is unlimited. DOD components (to include the combatant commands), other Federal agencies, and the public may obtain copies of this instruction through the Internet from the CJCS Directives Home Page--
http://www.dtic.mil/cjcs_directives.

9. Effective Date. This instruction is effective upon receipt.

For the Chairman of the Joint Chiefs of Staff:

WALTER L. SHARP
Lieutenant General, USA
Director, Joint Staff

ENCLOSURE A

CHARTER OF THE JOINT REQUIREMENTS OVERSIGHT COUNCIL

1. Introduction. The Defense Reorganization Act of 1986 established the Chairman of the Joint Chiefs of Staff statutory responsibility to advise the Secretary of Defense on requirements, programs, and budgets. In fulfilling this responsibility, the Chairman of the Joint Chiefs of Staff (hereafter referred to as “the Chairman”) will:

- a. Assess military requirements for major acquisition programs.
- b. Advise the Secretary of Defense on Military Departments’ and combatant commands’ capabilities.
- c. Provide program advice to the Secretary of Defense for the Joint Programming Guidance (JPG) via the Chairman’s program recommendations.
- d. Provide advice to the Secretary of Defense on conformance of the Services’ program objective memorandums to the priorities established in the strategic plans and by the combatant command’s priority capabilities via the Chairman’s Program Assessment (CPA).
- e. Provide alternative program recommendations and budget proposals via the CPA.

2. The Joint Requirements Oversight Council (JROC)

a. JROC Mission. Title 10, United States Code (USC), section 181, directed the Secretary of Defense to establish the JROC. In addition to other matters assigned to it by the President or Secretary of Defense, the JROC shall:

(1) Assist the Chairman in identifying and assessing the priority of joint military capabilities (including existing systems and equipment) to meet the national military and defense strategies.

(2) Assist the Chairman in considering alternatives to any acquisition program that has been identified to meet military capabilities by evaluating the cost, schedule, and performance criteria of the program and of the identified alternatives.

(3) As part of its mission to assist the Chairman in assigning joint priority among existing and future programs meeting valid capabilities, ensure that the assignment of such priorities conforms to and reflects resource levels projected by the Secretary of Defense through the JPG.

1 August 2007

b. JROC Membership. The Chairman is the chairman of the JROC. The functions of the JROC Chairman are delegated to the Vice Chairman of the Joint Chiefs of Staff. Other members of the JROC are officers in the grade of general or admiral from the Army, Navy, Air Force, and Marine Corps. Service representatives are recommended by their military department secretary and approved by the Chairman after consultation with the Secretary of Defense.

c. Advisory Support to the JROC

(1) Each of the combatant commands has a standing invitation to attend JROC sessions in an advisory role to the JROC Chairman on joint issues that address present and/or future joint warfighting capabilities.

(2) Any of the FCB participating organizations have a standing invitation to attend JROC-related meetings in an advisory role to the JROC Chairman on joint issues that address present and/or future joint warfighting capabilities to include:

(a) OSD/Milestone Decision Authorities (MDAs)

1. Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) *MDA for Major Defense Acquisition Programs (MDAPs)

2. Under Secretary of Defense for Policy (USD(P))

3. Under Secretary of Defense (Comptroller)

4. Under Secretary of Defense for Personnel and Readiness

5. Under Secretary of Defense for Intelligence (USD(I))

6. Under Secretary of the Air Force for Space Systems (USecAF Space) *MDA for Space Systems

7. Assistant Secretary of Defense (Networks and Information Integration)/DOD Chief Information Officer (ASD(NII)/DOD CIO) *MDA for Major Automated Information Systems (MAIS) and the responsibilities of the DOD CIO

8. Director, Program Analysis and Evaluation

(b) Defense Agencies

1. National Geospatial-Intelligence Agency

2. Defense Information Systems Agency

3. National Security Agency
4. National Reconnaissance Office
5. Missile Defense Agency
6. Defense Threat Reduction Agency
7. Defense Intelligence Agency
8. Defense Security Cooperation Agency
9. Defense Logistics Agency
10. Defense Advanced Research Projects Agency
11. Other Defense agencies

(3) Each of the following interagency organizations has a standing invitation to attend and provide senior-level advisory participation at JROC-related meetings on topics dealing in areas where their organizations have expertise:

- (a) National Security Council
- (b) Office of the Director of National Intelligence
- (c) Office of Management and Budget
- (d) Central Intelligence Agency
- (e) Department of State
- (f) Department of Homeland Security
- (g) Other interagencies or departments

(4) The Joint Staff/J-8, being responsible for DCRs, will serve the JROC in an advisory role to support staffing and action on JROC DCR decisions.

d. JROC Responsibilities. Members of the JROC are responsible to the Chairman for performing the missions and functions set forth in this charter. The JROC will:

1 August 2007

- (1) Assist the Chairman in coordinating, among combatant commands, Service force providers, and other DOD components the identification and assessment of joint capabilities and priorities for current and future military capabilities, forces, programs, and resources consistent with the National Military Strategy (NMS), the Strategic Planning Guidance (SPG) and the total resource levels projected by the Secretary of Defense in the JPG and fiscal guidance.
- (2) Assist the Chairman in providing guidance, oversight, and validation on complex capabilities integration.
- (3) Assist the Chairman to develop and/or validate operational and mission area integrated architectures, operational concepts required by the NMS, facilitating the advancement of joint warfighting capabilities and participating in the collaborative development of integrated architectures as described in DODI 5000.2.
- (4) Assist the Chairman in preparation of CJCS Chairman's Program Review and CPA.
- (5) Assist the Vice Chairman of the Joint Chiefs of Staff in his role as the co-chairman of the Defense Acquisition Board (DAB) by reviewing and approving military need and joint interoperability capabilities for potential Acquisition Category (ACAT) I programs, JROC interest programs, and Major Automated Information Systems (MAIS) as may be directed by the Secretary of Defense or Chairman and by considering cost, schedule and performance, and nonmateriel alternatives for acquisition programs identified to meet military needs (i.e., alternatives involving changes in doctrine, tactics, training, or organization).
- (6) Assist the Chairman in considering alternatives to any acquisition program identified to meet military capabilities by evaluating performance, costs, and schedule of the acquisition program and identified alternatives.
- (7) At its discretion, review any capabilities documents and acquisition programs to resolve interoperability or contentious issues.
- (8) For ACAT I programs, JROC interest programs, joint experimentation and MAIS, consider, review, and where appropriate, certify the nonmaterial joint doctrine, organization, training, materiel, leadership and education, personnel, and facilities (DOTMLPF) implications of materiel solutions for future joint warfighting capabilities and deficiencies.
- (9) Assess and prioritize combatant command, Service, and Defense agency warfighting capabilities and deficiencies and conduct other joint assessments of DOD programs, infrastructure, support functions, manpower,

1 August 2007

and quality-of-life matters as may be directed by the Secretary of Defense or the Chairman.

(10) Perform other duties as assigned to support CJCS advice to the President, National Security Council, Secretary of Defense, Congress, OSD, or others on matters concerning joint capabilities and priorities; science, technology, and acquisition; programs, budgets, and resources; balancing warfighting and support needs; as well as current readiness needs and investments in future capabilities.

(11) Assist the Chairman in drafting the annual JROC strategic guidance to the combatant commands, Services, and Joint Staff.

(12) Review acquisition programs and assessments at the request of the Secretary of Defense, Deputy Secretary of Defense, USD(AT&L), USD(P), Office of the Assistant Secretary of Defense (OASD) (NII)/DOD CIO, USD(I), and USecAF Space.

(13) Review, assess, and validate Joint Experimentation Plan.

(14) Assist the Chairman in considering alternative program recommendations in programs experiencing cost growth. The JROC will review and provide an assessment and evaluation of JROC interest programs that experience a 10 percent increase to the program's current program baseline (Program Acquisition Unit Cost/Acquisition Procurement Unit Cost) and/or a 25 percent cost growth relative to their original program baseline to avert Nunn-McCurdy breaches.

e. JROC Functions

(1) Determine and oversee the processes and methods to be used in identifying, developing, assessing, validating, and prioritizing joint capabilities.

(2) Determine the joint capabilities necessary to achieve joint force interdependence and interoperability within combined and/or coalition forces and with nongovernmental organizations and non-DOD organizations both from the United States and other countries.

(3) Review, validate, and approve joint warfighting capabilities and validate that those capabilities cannot be satisfied by nonmateriel means.

(4) Review and approve joint capabilities assessment methodologies.

(5) Establish and oversee the procedures by which joint capabilities are validated.

- (6) Oversee the process for certifying that capabilities incorporate the interoperability and net ready key performance parameters (KPPs) into applicable initial capabilities documents (ICDs), capability development documents (CDDs), capability production documents (CPDs), and DCRs as defined in the CJCSI 6212 series.
- (7) Direct the review of all JCDs, ICDs, CDDs, CPDs, and DCRs for the purpose of identifying those with joint warfighting impact and assign a joint potential designator (JPD) of JROC interest, joint integration, joint information, or independent based upon that review.
- (8) Validate KPPs of the acquisition program baseline prior to DAB reviews of MDAPs, (including, unless otherwise directed by the Secretary of Defense, highly sensitive classified programs).
- (9) Oversee the process for certifying intelligence supportability and threat validation as defined in the CJCSI 3312.01 series.
- (10) Identify and/or review actual or potential system attributes of ICDs, CDDs, and CPDs that are potential cost drivers to a program.
- (11) Review results of concept exploration and definition studies. Provide appropriate recommendation on alternatives and cost performance trades to USD(AT&L) prior to program initiation review.
- (12) Conduct program reviews between formal acquisition milestone decisions, as required, to ensure system performance meets original mission needs and to address synchronization of evolving capabilities with and among current acquisition programs.
- (13) Ensure Service-proposed capabilities, forces, programs, and budgets are linked to the national military and defense strategies, SPG, joint operations concepts, and integrated architectures (when or as developed) and combatant command-identified capabilities needed.
- (14) Oversee broad mission area assessments. Review and approve plans and recommendations for correcting joint warfighting deficiencies of the combatant commands while ensuring interoperability, reducing parallel and duplicate development efforts, and promoting economies of scale.
- (15) Conduct risk assessments and establish joint priorities within key warfighting and support areas.
- (16) Assist the Vice Chairman in formulating positions to be taken in discussion or correspondence with appropriate DOD components and/or the combatant commands on issues before the DAB.

(17) Establish and oversee the supporting structures and processes necessary to accomplish the JROC's assigned missions and responsibilities, to include:

- (a) The Gatekeeper process
- (b) FCBs
- (c) JCBs

(18) Provide oversight of the JCIDS process.

(19) Meet periodically with combatant commands to ensure current and future warfighting deficiencies and capabilities are identified, well defined, and given emphasis in the establishment of joint capabilities and programmatic priorities.

(20) Provide guidance to ensure development and validation of the operational view of integrated operational concepts and/or view of integrated architectures and related products (e.g., joint operations concept), capabilities integration and operational concepts in support of the NMS and realization of joint warfighting capabilities.

(21) Maintain a central and integrated database and knowledge management system for:

(a) Capabilities integration and documentation, including JCDs, ICDs, CDDs, CPDs, and DCRs.

(b) Decisions on the operational view of integrated operational concepts and/or view of integrated architectures and related products.

(c) Operational concept decisions.

(d) Joint DOTMLPF review issues.

(e) Any other JROC validation or support decisions.

(22) Review and validate all FCB efforts, including:

(a) Approval of strategic assessment topics.

(b) Approval of individual FCB assessment topics.

1 August 2007

(c) Approval of all other FCB assessment efforts, to include Joint Quarterly Readiness Review, Quadrennial Defense Review support, and portfolio management decisions.

(d) Approval of the resources identified and used to support JROC/JCB/FCB efforts.

(e) Approval of joint functions concepts.

(23) Nominate topics for JROC consideration and advise the JROC Chairman on issues requiring council review.

(24) Ensure the DOTMLPF recommendations resulting from joint concept development and experimentation are integrated into JROC deliberations on identifying, developing, validating, and prioritizing joint capabilities.

(25) Ensure the Joint Experiment Plan results are integrated into JROC deliberations on identifying, developing, validating, and prioritizing joint capabilities. During this experimentation, combatant commands should be prepared to leverage those promising joint operational capabilities identified by USD(AT&L), link them to applicable DCRs and advanced concept technology demonstrations (ACTDs) and provide recommendations.

(26) Review ACTD proposals prioritized by vote of the combatant commanders and Services to validate the associated mission needs prior to ACTD approval by USD(AT&L).

(27) Approve development of JIC.

3. The Joint Capabilities Board

a. JCB Membership. The JCB is comprised of general or flag officers from each of the Services, designated by their respective JROC permanent member. The JROC Secretary chairs the JCB. The Chief, Joint Capabilities Division, Joint Staff/J-8, is designated as the JCB Secretary.

b. JCB Functions. As the JROC supports the Chairman in carrying out CJCS responsibilities, the JCB functions to assist the JROC in carrying out its duties and responsibilities. Functions of the JCB are:

(1) Assist the JROC in overseeing the JCIDS, to include mission-need determination, review and validation and/or approval of JCDs, ICDs, CDDs, and CPDs and operational view of integrated operations concepts, architectures, and related products.

1 August 2007

(2) Review FCB insights, findings, and recommendations as well as provide appropriate guidance, suggestions, and direction prior to final JROC review.

(3) Nominate topics for JROC consideration and advise the JROC Chairman on issues requiring council review.

4. The Gatekeeper (Vice Director, J-8 (VDJ-8))

a. The Gatekeeper process is the initial review of submitted JCDs, ICDs, CDDs, CPDs, and DCRs. The Gatekeeper determines the JPD to assign and determines which FCB should lead and support.

b. The Knowledge Management Decision Support (KM/DS) tool will be used throughout the entire JCIDS process from initial submission of the document, staffing, JCB review, to JROC action and follow-up if needed.

5. The Functional Capabilities Board

a. The FCB, in accordance with CJCSI 3137.01, is responsible for the organization, analysis, and prioritization of joint warfighting capability needs proposals within assigned functional areas. The FCB will work to ensure that the joint force is best served by the capabilities proposed through JCIDS and that those capabilities consider all DOTMLPF considerations.

b. The FCB is an advisory body to the JCB and JROC for JCIDS initiatives assigned with JPDs of "JROC interest." JCIDS initiatives with a JPD of "joint integration" will require intelligence certification and/or threat validation, munitions certification or interoperability certification as appropriate before returning to the sponsor for validation and approval. JCIDS initiatives with the JPD of "Joint Information" or "Independent" will be routed to the sponsor for validation and approval.

c. The FCB Chairman has the flexibility necessary to implement the intent of this instruction for those cases not explicitly covered. In cases where there is disagreement within the FCB that cannot be resolved, the FCB Chairman will forward the issue to the JCB for decision. The FCB Chairman may invite the appropriate MDA representative to co-chair the FCB for appropriate topics.

d. Each FCB evaluates its functional area(s) and JCIDS proposals that affect its functional area(s). Functions of the FCB are:

(1) Assist the JROC and JCB in overseeing capabilities development to include initial capabilities, review and validation and/or approval of JCDs, ICDs, CDDs, CPDs, DCRs, and operational view of integrated operational concepts and/or architectures and related products.

(2) Coordinate and integrate participation to ensure that the supporting analysis adequately leverages the expertise of the DOD components -- in particular, the Services, combatant commands, agencies, and DOD laboratories -- and science and technology community initiatives, experimentation initiatives, non-DOD agencies, and industry to identify promising materiel and nonmateriel approaches.

(3) Develop FCB insights, findings, and recommendations on the operational view of integrated operational concepts and/or architectures and related products and provide appropriate recommendations to the JCB.

(4) Nominate topics for JCB and/or JROC consideration and advise the JCB and JROC Chairman on issues requiring JROC review.

(5) Ensure all read ahead briefs are posted 72 hours prior on KM/DS for widest dissemination of information as possible. Forward all FCB minutes to the JROC Secretariat and post to KM/DS. Prepare and present context slides for FCB topics for all pre-briefs, as well as JCB and JROC briefs.

(6) Provide USD(AT&L) priority joint warfighting capabilities for each of the joint functional concepts as established through the JCIDS process. These priority joint warfighting capabilities will serve to inform the science and technology community and focus the technology development efforts specified in the Joint Warfighting Science and Technology Plan.

(7) Ensure FCBs provide briefings and summaries to all other FCBs within 2 business days of conclusion of subject meetings.

6. JROC Chairman. The JROC Chairman performs the following functions:

- a. Calls the JROC meetings.
- b. Develops the agenda for JROC meetings, organizes JROC work, and ensures prompt prosecution of JROC business.
- c. Oversees the JCIDS process to ensure proper focus in accordance with JROC responsibilities.
- d. Acts on behalf of the JROC in maintaining liaison with appropriate DOD components.
- e. Serves as the co-chairman of the DAB.
- f. Schedules briefings by the appropriate DOD component on issues that may require JROC resolution or recommendations.

g. Records, with the support of the JROC Secretariat, decisions and recommendations of the JROC through JROC memorandums.

h. Responsible for all internal and external reports.

7. JROC Secretary. The JROC Chairman appoints the Joint Staff Director for Force Structure, Resources, and Assessment as the JROC Secretary. The functions of the Secretary are to:

a. Function as the chairman of the JCB.

b. Support the JROC Chairman and the JROC in executing JROC responsibilities.

c. Distribute JROC decisions.

d. Develop and establish JROC administrative procedures.

e. Provide necessary continuity and a Joint Staff point of contact (POC) for the JROC.

f. Appoint a JROC recorder to document JROC actions and maintain JROC historical records.

g. Coordinate oversight of the JCIDS process and coordinate other issues requiring JROC review.

h. Conduct JROC pre-briefs to ensure format, content, and presentation are appropriate.

i. Coordinate the actions of the Joint Staff in their support of the JROC Chairman.

j. Maintain liaison with the combatant commands.

k. Maintain a central and integrated database and knowledge management system directly supporting the JROC process.

l. Perform all other JROC or JCIDS process oversight, facilitation, and integration functions as directed by the JROC.

8. JROC Capabilities. Strategic assessments represent the principal mechanism by which the JROC focuses FCB efforts on significant issues with the greatest potential impact on future joint warfighting. These assessments will enable the JROC to make definitive decisions and recommendations on

1 August 2007

future operational concepts and architectures and individual or family of system capabilities. Based on these published decisions and standards, the JROC will validate the compliance of future capabilities.

a. Strategic assessments represent the JROC's highest priority efforts and will receive the highest priority for JROC resources. These assessments fall into three general categories: operational concepts and architectures, future system characteristics, and capabilities and bridge or future/legacy system requirements. These assessments can provide an opportunity for the Chairman to influence joint experimentation efforts and facilitate their eventual impact on DOD decision-making processes.

b. The JROC will solicit strategic topics from the combatant commands, Services, Joint Staff, OSD, and combat support agencies based on current CJCS strategic guidance. In addition, the normal timeline links development of assessment efforts with FCB resource allocation. Because strategic topics represent a considerable commitment of JROC resources, the JROC will solicit strategic topics based on FCB availability, not necessarily on an annual basis.

9. JROC Communications

a. JROC communications are separate, unique and do not follow normal Joint Staff or Service channels. The JROC process includes the JCIDS process; accordingly, JCIDS communications will use the procedures outlined below. Direct communications are necessary to facilitate and expedite JROC information flow. Communications from the JROC to the combatant commands and Services are direct. Combatant command or Service principals will identify a combatant command or Service POC who has direct access to that principal to assist and facilitate JROC matters. Priority communications will be direct from the JROC Chairman or the JROC Secretary to the combatant command or Service principal and return. Likewise, communications between the JROC and the MDAs: USD(AT&L), ASD(NII)/DOD CIO, and USecAF Space are direct. The communications channels are via memorandum from the JROC Chairman to the MDAs, USD(AT&L), OASD(NII)/DOD CIO, and USecAF Space and return, or from the JROC Secretary to the DAB Executive Secretary and return. The Vice Chairman of the Joint Chiefs of Staff is the Principal JROC representative to the Deputy's Advisory Working Group and as the Principal, can present JROC position.

b. JROC Information Availability and Releasability

(1) The JROC Secretariat is the approval authority for release of all official JROC information and documents. JROC pre-decisional documents and briefings are not available for release without coordination of the JROC Secretariat and Joint Staff/J-8, Joint Capabilities Division.

1 August 2007

(2) The JROC Secretariat will maintain all minutes and memorandums associated with the JROC process. Pre-decisional minutes and memorandums will be accessible to the Services and the Joint Staff. Pre-decisional memorandums will be accessible to the combatant commands as appropriate. The OSD, combatant commands, and other DOD agencies will be able to access approved materials through the KM/DS Web-based application.

(3) When the Secretary of Defense approves a recommendation of the Chairman, oversight information (information and materials comprising analysis and justification that are prepared to support a recommendation that is made to, and approved by, the Secretary of Defense) with respect to the recommendation produced as a result of JROC activities will be made available in a timely fashion to congressional defense committees.

(4) Other JROC information may be released to Congress and other non-DOD entities only after complete case-by-case review and coordination with the JROC Secretariat, JROC, Services, and applicable Joint Staff offices (e.g., Legal Counsel, Public Affairs, and Legislative Assistant), as appropriate.

10. Process. For specific details on the JROC process, briefing formats, and administrative guidelines see the JROC Administrative Guide (reference g).
