Preface

Introduction

The Secretary of Defense hereby submits to the Congress the Defense Manpower Requirements Report (DMRR) for fiscal year (FY) 2009 in compliance with Section 115a of Title 10, United States Code (U.S.C.). This report should be used with the Report of the Secretary of Defense to the Congress on the FY09 Budget.

Organization of the Report

This report explains the Department of Defense (DoD) manpower requirements incorporated in the President's Budget for FY09. The report is organized into five chapters.

- Chapter 1 contains an overview of the total number of Defense-wide personnel both military and civilian. It provides a clear and succinct picture of manpower in the Department and provides the basis for the rest of this report.
- Chapter 2 shows the estimated manpower requirements by force and infrastructure categories for each of the Services along with details on military technicians, numbers that provide full-time support to the Selected Reserves, the manpower in the Defenselevel activities and accounts, and manpower required to be stationed overseas and afloat.
- Chapter 3 shows the flow of active duty officer and enlisted personnel through each of
 the Services for the current and next five FYs. It provides a general summary of the
 flow, listing beginning and end strength numbers by officer and enlisted grades
 accounting for retirements, promotions, deaths, etc. It also provides a more detailed
 look at retirements individually by paygrade and years of service.
- Chapter 4 contains medical manpower requirements and justifications. It displays the number of military medical personnel by corps or designation, for both the active and Reserve component within the DoD.
- Chapter 5 contains narrative manpower request justifications from the Services.

Manpower Requirements Overview

Our Armed Services represent the most capable military forces ever assembled – enabled by a superb All Volunteer Force. Each day, Soldiers, Sailors, Marines, and Airmen serve proudly throughout the world, often in harm's way. They are supported by thousands of DoD civilians and contractors, many of whom serve alongside them in overseas locations. Operations in Iraq, Afghanistan and elsewhere have stressed our military forces, requiring increases to active component (AC) end strengths and extensive use of our Reserve component (RC). This clearly demonstrates the flexibility inherent in our All Volunteer Force.

In addition to fielding operating forces, the Department has a substantial commitment to supporting many Defense and non-DoD missions/organizations. Table 2-4 in Chapter 2 provides information on military manpower assigned outside the parent Services.

Manpower is not a requirement in itself. Our manpower investments must complement those in many areas, such as platforms, weapons, maintenance, and training, to deliver capabilities (such as combat air dominance or logistics lift). These capabilities are the real requirements. For manpower, we believe it is important that all the Services define their workload requirements such that capabilities can be operationalized in a cost-effective manner. Otherwise, we would fail to have adequate funds to pay for other required capability enablers. In addition to arriving at a fiscally informed Total Force manpower solution(s), we must work with them to ensure personnel policies, including compensation, are aligned to help attract, develop, and retain the All Volunteer Force's soldiers, sailors, Marines, and airmen.

The Total Force

The data within this report are broken down by many of the various components that make up the Total Force. This section provides a description of all of the components of the Total Force in order to better help the reader understand and interpret the rest of the report.

The structure of our Armed Forces is based on the DoD Total Force Policy that recognizes various components' contributions to national security. Those components include the Active and Reserve components, the civilian work force, DoD contractors, and host nation support.

- Active Component (AC) Military. The AC military are those full-time military men and
 women who serve in units that engage enemy forces, provide support in the combat theater,
 provide other support, or who are in special accounts (transients, students, etc.). These
 men and women are on call 24 hours a day and receive full-time military pay.
- Reserve Component (RC) Military. The RC military is composed of both Reserve and Guard forces. The Army, Navy, Marine Corps, and Air Force Reserves each consist of three specific categories: Ready Reserve, Standby Reserve, and Retired Reserve. The Army and Air National Guards are composed solely of Ready Reserve personnel.
 - <u>Ready Reserve</u>. The Ready Reserve consists of RC units, individual reservists
 assigned to AC units, and individuals subject to recall to active duty to augment the
 active forces in time of war or national emergency. The Ready Reserve consists of
 three subgroups: the Selected Reserve, the Individual Ready Reserve, and the Inactive
 National Guard.
 - Selected Reserve (SELRES). The SELRES is composed of those units and individuals designated by their respective Services and approved by the Chairman, Joint Chiefs of Staff, as so essential to initial wartime missions that they have priority for training, equipment, and personnel over all other Reserve elements. The SELRES is composed of Reserve unit members, individual mobilization augmentees (IMAs), and Active Guard and Reserve (AGR) members. Reserve unit members are assigned against RC force structure, IMAs are assigned to, and trained for, AC organizations or Selective Service System or Federal Emergency Management Agency billets, and AGRs are full—time Reserve members who support the recruiting, organizing, training, instructing, and administration of the RCs.
 - Individual Ready Reserve (IRR). The IRR is a manpower pool consisting mainly of trained individuals who have previously served in AC units or in the SELRES. IRR

- members are liable for involuntary active duty for training and fulfillment of mobilization requirements.
- Inactive National Guard (ING). The ING consists of Army National Guard personnel who are in an inactive status (the term does not apply to the Air National Guard). Members of the ING are attached to National Guard units but do not actively participate in training activities. Upon mobilization, they would mobilize with their units. To remain members of the ING, individuals must report annually to their assigned unit.
- Standby Reserve. Personnel assigned to the Standby Reserve have completed all obligated or required service or have been removed from the Ready Reserve because of civilian employment, temporary hardship, or disability. Standby Reservists maintain military affiliation, but are not required to perform training or to be assigned to a unit.
- <u>Retired Reserve</u>. The Retired Reserve consists of personnel who have been placed in retirement status based on completion of 20 or more qualifying years of RC and/or AC service. A member of the Retired Reserve does not receive retired pay until reaching age 60, unless he or she has 20 or more years of active Federal military service.
- <u>Civilian Component</u>. Civilians include U. S. citizens and foreign nationals on DoD's direct payroll, as well as foreign nationals hired indirectly through contractual arrangement with overseas host nations. This category does not include those paid through non-appropriated fund (NAF) activities.
- Contractor Services Support Component. DoD uses service contracts to: a) acquire specialized knowledge and skills not available in DoD; b) obtain temporary or intermittent services; and c) obtain more cost-effective performance of various commercial-type functions available in the private sector. Section 2461 of Title 10, U. S.C. requires the development of government versus private sector total cost comparison analyses to justify contracting out DoD functions that are not inherently governmental or closely tied to mobilization.
- Host Nation Support Component. Host nation military and civilian personnel support, as identified in international treaties and status of forces agreements, represents a costeffective alternative to stationing U. S. troops and civilians overseas.

Chapter 1: Department Overview

The tables in this chapter provide an overview of Defense-wide manpower, both military and civilian. They give the most succinct picture of manpower in the Department for the previous, current, and next FYs, and provide the basis for the rest of this report. A more specific summary of each table follows.

Table 1-1 gives an overview of total Department manpower for the previous, current, and next FYs broken down by Service, Active/Reserve, and Civilians. Table 1-1 provides a picture of all Defense-wide manpower which the rest of the tables in this report will expand upon in greater depth.

Table 1-2a shows the active component military manpower totals by personnel category (i.e., officer, enlisted, and cadet/midshipmen) for each Service for the previous, current, and next FYs. Table 1-2b shows the same information for the RCs.

Table 1-3 presents the numbers of major military force units (land, air, naval, mobility, strategic, C4ISR) supported by the overall manpower by type and component, for the previous, current, and next FYs.

Table 1-4 shows the active military manpower assigned within a unit force-structure and projected strength estimates for categories of individuals not in the unit force-structure and consisting generally of transients, holdees, students, trainees, and cadets/midshipmen.

Chapter 2: Service and Defense-Level Summaries

The tables in this chapter show the estimated manpower requirements by force and infrastructure categories for each of the Services along with details on military technicians, numbers that provide full-time support to the Reserve, the manpower in the Defense-level activities and accounts, and manpower required to be stationed overseas and afloat. A more specific summary of each table follows.

Tables 2-1a through 2-1d give end strength summaries for total military and civilian manpower by force and infrastructure for the previous, current, and next FYs. The table is broken down into two halves. The first half contains force totals and three sub-categories of expeditionary forces, deterrence and protection forces, and other forces. The second half has the infrastructure totals in 11 sub-categories ranging from logistics and communication to training, science and technology. Each table also includes a grand total and the percentage of the total that the infrastructure represents.

Table 2-2 shows the numbers of military technicians assigned, authorized, and required by status and organization for the previous, current, and next FYs for the Army and Air Force. Totals are given in thousands for both high-priority units and other units for dual and non-dual status individuals.

Table 2-3 shows the full-time support to the Selected Reserve for the previous, current, and next FYs. Sub-totals for AGR, technicians, and civilian are given for each RC.

Table 2-4 shows the manpower in Defense-level activities and accounts for the previous, current, and next FYs. Components are organized in sub-categories of Office of the Secretary of Defense (OSD) level, Defense Agencies, Defense Field Activities, Other Defense-Wide Organizations, Joint Staff and Unified/Combined Commands, and Program Manager Manpower.

Table 2-5 shows the Service-level manpower required to be stationed in foreign countries and ships afloat for previous, current, and next FYs.

Chapter 3: Officer and Enlisted Flow Data

The tables in this chapter illustrate the flow of active duty personnel through the individual Services. For each Service, there will be a series of four tables presented. These tables include officer and enlisted gains and losses for the current and next five FYs and officer and enlisted retirements by years of service for the current and next five FYs. A more specific summary of each table follows.

In tables 3-1a through 3-1d and 3-3a through 3-3d active duty gains and losses are presented for the current and next five FYs for each of the individual Services by officer and enlisted personnel categories, respectively. Each table includes beginning strength and various categories of gains and losses tabulated to determine the end strength at each grade. Since the individual Services use different approaches to tracking flow, direct comparisons between Services may not be possible.

In tables 3-2a through 3-2d officer active duty retirements are presented by grade and years of commissioned service (YOCS) for the current and next five FYs for each of the individual Services. In tables 3-4a through 3-4d enlisted active duty retirements are presented by grade and years of service (YOS) for the current and next five FYs for each of the individual Services. The tables are divided by officer grades (O-1 to O-10) and enlisted grades (E-1 to E-9) and years of service ranging from 1 to 30+.

Chapter 4: Medical Manpower Requirements

This chapter displays military medical manpower by corps or designation for Active and Reserve Components along with civilian medical personnel working in fixed medical treatment facilities for the previous, current, and next fiscal years. For Active and Reserve Components, the FY07 data represent validated actual end strength obtained from the Health Manpower and Personnel Data System (HMPDS) maintained at the Defense Manpower Data Center, Seaside, CA. The FY08 and FY09 data represent budgeted end strength submitted by the Army, Navy, and Air Force. It is important to note that the Reserve Component manpower in this report is limited to that of the Selected Reserve. To meet total force wartime needs, the Military Departments will also rely, in part, on the pre-trained individual manpower (PIM) categories within the RC. The PIM is composed of the Individual Ready Reserve, the Standby Reserve, and military retirees. The civilian medical personnel are reported as work-years or full-time equivalents and include doctors, dentists, nurses, allied health and administrative personnel required to support day to day activities in fixed medical treatment facilities.

Mission

The primary mission of the Military Health System (MHS) is to enhance DoD and the Nation's security by providing health support for the full range of military operations and sustaining the health of all those entrusted to its care.

Key Medical Manpower Issues

The MHS provides medical care to over 9.1 million DoD beneficiaries located around the globe with a workforce of more than 160,000 active and civilian medical personnel and over 67,000 reserve medical personnel. We continuously strive to improve the development of key medical skills and align our workforce's capabilities to meet new and emerging medical needs. Our readiness mission requirements demand that our three service Medical Departments work together through increased collaboration and integration across the MHS to achieve interoperability and agility in meeting our responsibilities of today and the future.

The MHS is facing numerous challenges as we continue to fight a global war on terrorism, defend our Nation's homeland, and provide support around the globe for humanitarian efforts. These include a challenging recruiting and retention environment during a demanding war, an increasingly competitive civilian healthcare industry job market, a projected future nationwide shortage of physicians and nurses, a growing and aging beneficiary population, and the increasing cost of sustaining the health care benefit. Internal to DoD, development of a framework for a Joint/Unified Medical Command (J/UMC), BRAC, and other strategic initiatives drive re-examination of component structures and service medical human resource requirements.

The ASD (HA) has outlined an MHS Human Capital Strategy to meet these challenges. This plan establishes the vision for optimizing the MHS workforce across the Services to enable the delivery of its evolving mission more effectively and efficiently through increased interoperability, collaboration, and agility. The goals of this plan include:

- Planning and executing an empowering human capital lifecycle for the Total Medical Force to optimize MHS mission accomplishment and allow people to perform at their highest levels (i.e., joint solutions, optimal mix and career path planning).
- Leverage existing, performance-based management systems to create and lead an agile and responsive Total Medical Force to accomplish the MHS mission (i.e., National Personnel Security System and coordinated military/civilian personnel incentives).
- Educate, train, and develop the Total Medical Force to provide quality care while assuring interoperability (i.e., joint education and training programs).
- Create and implement adaptable and inspirational human capital solutions to address changes in mission requirements, healthcare delivery trends, and emerging healthcare needs (i.e., joint solutions, environmental scans, and identifying ideal Force mixes to meet both operational medicine and peacetime healthcare delivery demands).
- Build and maintain a unified information management capability to enable an enterprisewide view of MHS human capital and energize strategic human capital management.

The MHS Strategic Plan will help the MHS successfully meet its missions and provide world-class healthcare to our beneficiaries.

^{/4} FY07 Actuals excludes 650 USUHS

^{/5} FY07 AC/RC actuals from HMPDS FY07

Chapter 5: Manpower Request Justifications Army Manpower Request

Introduction

The Army remains in the midst of its most significant reorganization since WWII. Manpower in both the operating and institutional force reflects that change. Additionally, as the Army develops a greater understanding of the nature and requirements of a long war, we continue to adapt our manpower and underlying unit and organizational designs to meet these needs. These changes range from how we develop curriculum and man our schools to the organization and manning of medical facilities treating wounded Soldiers. Demand for both Army units and individual augmentees continues to exceed supply; which prevents the Army from reaching its desired rotation rates of 1:3 for Active component units and 1:5 for Reserve component units. The Grow the Army (GTA) plan is designed to address this, but at current demand levels rotation rates will not fall below 1:2 for most AC units until FY 11. This high tempo of rotation places an unprecedented level of stress on the all volunteer force and many of our manpower initiatives are designed to address the impacts of those stresses.

Military Manpower

Operating Forces:

- Active Component. In 2008, we will add one new Brigade Combat Team (BCT), four new multi-functional support brigades, and seven functional support brigades to the force. In 2009, the GTA plan will add two additional BCTs, two multi-functional support brigades, and six more functional support brigades; bringing us to a total of 42, 35, and 41 respectively. Another significant change to our operational force is the conversion of our Army Service Component Commands (ASCC) to a new and more robust design which provides the Regional Combatant Commander a full-spectrum, deployable Army headquarters. In 2007 we activated US Army North; in 2008 we converted US Army Pacific and US Army South; and in 2009 we will convert US Army Europe and convert the Southern European Task Force to an ASCC in support of the new US Africa Command. The AC will be 90% complete in its build to modular structure under the GTA plan at the close of 2009.
- O Army National Guard. We started the build of the final four BCTs and right sized two BCTs (one into a Battle Field Surveillance Brigade and one into a MEB) in the ARNG in 2008, and add one more multi-functional support brigade and six additional functional support brigades. In 2009 we will add three additional multi-functional support brigades for a total of 28 BCTs, 40 multi-functional support brigades, and 36 functional support brigades. This will bring the ARNG to 93% completion of the GTA plan.
- Army Reserve. In 2008, the United States Army Reserve will build five multi-functional and three functional support brigades in support of the GTA plan. In 2009, we will add one additional multi-functional and one functional support brigade bringing the total to 10

multi-functional support brigades and 38 functional support brigades, which is 80% of the total GTA plan.

• Institutional Forces: The most significant change to our institutional force is the creation of Warrior Transition Units which began in 2007 and culminate in 2008. These units are a key element of the Army Medical Action Plan and are meant to provide Soldiers a continuum of integrated care from point of injury, illness or disease to return to duty or transition from active duty. At end state we will have more than 70 of these units, each manned by Soldiers from all three components and civilians. The multi-compo makeup of these units is a conscious decision and reflects that our Warriors in Transition come from all three components. A continuing transition in the Institutional force is our effort to convert those military billets which don't require current military expertise to civilian performance which allows us to move the Soldiers back to the operating force. This is critical because many of these billets are mid grade NCOs who are needed to man new modular formations.

Civilian Manpower:

Department of the Army civilians are filling increasing responsibilities in the Institutional force and we are searching for funding to allow us to grow their numbers commensurate with the growth in operational forces.

Congress requires the Army to project the number of full time equivalent civilians in the budget based on workload and available funding. Congress establishes floors and ceilings on certain categories of manpower, such as military technicians. About 47.7 % of the Army civilian workforce is within the discretionary control of the Army. The remaining 52.3% of the civilian workforce is subject to different statutory constraints and/or funding sources external to the Army and falls into the following categories: 1) 11.6% are paid for by the working capital fund (pursuant to 10 USC 2208); 2) 10.2% are foreign national employees controlled by international agreements; 3) 15.2% are Military Technicians; and 4) 15.3% are externally funded (to include Defense Health Programs, Special Operations, Intelligence, Foreign Military Sales and Counterdrug programs). In addition, there are about 27,000 employees separately funded by the Civil Works and Cemeterial appropriations.

Since 9-11, we increased the civilian employee workforce from 222,000 to 241,000 due to the global war on terrorism, military to civilian conversions, military technician increases, Defense Health Program increases and in-sourcing contracts associated with inherently governmental functions. Future civilian employee growth is critical to supporting current plans to accelerate and sustain the growth of the Army to 76 brigade combat teams and associated combat support/combat service support units by FY11. We intend to migrate Soldiers from the generating force to operational units by replacing them with civilians. In-sourcing contracted functions to performance by Department of the Army civilians has saved the Army an average of \$48 thousand per full time equivalent. To date, we have in-sourced 289 billets and another 144 have completed cost analysis and are awaiting final approval. We will continue to stress this important manpower shaping tool.

In this environment, it is essential for Congress and the Department to work together to secure stable funding for the civilian workforce and eliminate all direct and indirect statutory constraints on the civilian workforce not based on workload. Recent Congressional approval to repeal major headquarters activities limitations and provide additional in-sourcing flexibilities has allowed us to improve the command and control of operational activities in Army Service

Component Command (ASCC) headquarters and to in-source contracts associated with inherently governmental functions. In response to Congressional concerns, we are taking steps to make certain that competitive sourcing actions are based on considerations of operational demand and not pre-established targets, as required by the related certifications in section 2461and 2462 of Title 10. There are areas, however, where Congress and the Department can further build on these structural management improvements:

- Reductions to major headquarters activity funding in the Fiscal Year 2008 Appropriations
 Act undercut the objectives of this statute and recent in-sourcing authorities provided by
 Congress.
- Reductions in the budget year for civilian under execution in the prior year make it difficult for the Army to grow based on workload.

In September 2007, we continued the policy requiring Senior Commanders and HQDA Principals to be responsible for having a human capital strategy for military, civilians (career, term, and temporary), and contractors that addresses both short and long term workforce requirements and wisely uses the Army's scarce resources in execution of the Army's priorities. This policy stated that we must transform to meet enduring requirements in our core competencies with military and civilian employees, and only use contractors for surge or specialized needs. Within each organization's human capital strategy for civilians, we need to improve the pace of civilian hiring to fill the Army's needs.

Contract Manpower

The Army has continued its effort to account for the capabilities provided through contracted services and subjected these capabilities to requirements validation and review for potential in-sourcing. To do this, we have established a contractor inventory pursuant to the requirements of Section 807 of the National Defense Authorization Act for FY08 and Title 10 section 2330a. To date, the Army has accounted for about \$30.2 billion of contracted services for a reported contractor workforce of approximately 169,000 contractor man year equivalents (CMEs): 94K CMEs in the generating force and 75K CMEs in the Central Command area of responsibility.

Navy Manpower Request

Introduction

We are a maritime Nation. We are a maritime Service. We are and will remain the preeminent maritime power. Our Navy is unique – unlike any other Service – we are a seagoing force. Throughout our history, we have shown the American people and the world that we are committed to and capable of evolving and expanding our mission capabilities as required to defend our homeland and Nation's vital interests, as well as prevent wars, dominate threats and defeat adversaries. Our success is a direct reflection of the dedication and commitment of our most valuable asset, our people – the Navy Total Force – military, civilians and contractors, and the families that support us by making the sacrifices that enable us to fulfill our mission.

People are the foundation for all that our Navy achieves. No ships will sail, no aircraft will fly, no submarines will submerge, no goods will be delivered, no roads will be built, and no terrorists will be defeated without acquiring and keeping people with the right talents and skills, and developing and enhancing them to deliver the mission. It is only through our people that we will remain the world's most powerful Navy, fulfilling the mission and bringing the Maritime Strategy to life. We have been called on to expand our operations to include more non-traditional missions. Additionally, we continue working with familiar allies, former adversaries, and an expanding set of global partners. Whether providing "boots on ground" support to combat operations, fighting piracy, providing medical care and comfort, or protecting the seas, our people are ready to serve in the modern Navy. While our Service has evolved, our service to country and the world has fundamentally remained the same – a service ethos sealed with pride, exemplified by selflessness and firmly rooted in honor, courage and commitment.

Manpower Status

In the past year, 337,574 active duty, 69,933 reserve and 171,070 civilians in the Navy helped bring certainty to an uncertain world. Through FY07, the Navy continued to size the force to meet the optimized FY13 end-strength requirement of 322,000. This future manpower requirement was derived from a capability-based analysis of current and future force structure and warfighting requirements associated with 313 ships, 2,813 aircraft, and present Global War on Terrorism (GWOT) requirements. Changes to future force structure will necessitate changes in associated manpower requirements. The Navy of 2013 will leverage technological advances that require better educated Sailors, thereby requiring less manpower to operate. Requirements are continually reviewed for "relevancy." Although force size will be reduced, manpower costs are expected to remain on a steady incline.

• GWOT: The changing global security environment has assured us that Individual Augmentation (IA) / GWOT Support Augmentation (GSA) will remain for the foreseeable future. As of December 31, 2007, we have deployed or mobilized 62,811 Sailors – 17,435 AC and 45,376 RC – as IAs since the beginning of Operation ENDURING FREEDOM. Almost 75 percent of IAs are employed using their core Navy competencies such as electronic warfare, airlift support, cargo handling, maritime security, medical support, explosives engineering, and construction.

Presently, we have more than 8,000 Sailors on the ground in Iraq and Afghanistan supporting the current fight. We have 93 submarines and ships with supporting aircraft deployed in the Mediterranean Sea, the Arabian Gulf, the Western Pacific, the Caribbean, and the Gulf of Guinea. We have Sailors in the Horn of Africa building wells, roads, and other infrastructure for local populations.

Recruiting/Retention: In FY07, our Navy continued to meet recruiting and retention goals.
We exceeded our active enlisted accession goals for the ninth consecutive year. We
achieved 100 percent of our reserve enlisted affiliation goal. We met 88 percent of our
active officer goal with the shortfalls primarily due to medical student programs and
chaplains. Our Navy will continue to aggressively attract the best talent our nation has to
offer. This is a challenging task considering an increasingly difficult recruiting environment.

While the desire to serve our nation is a strong motivator, our Navy needs other ways to attract and retain our talented people. New and enhanced special and incentive pay authorities enacted in both the FY06 and FY07 NDAAs have helped Navy attain goals in key mission areas and improve performance in others. As a result, we met our FY07 enlisted SELRES goal for GWOT-intensive ratings; received an increase in the number of new recruits in the Naval Special Warfare/Naval Special Operations (NSW/NSO) programs; and saw an increase in application activity in the medical professions.

Strategy for Our People: Last year, the Navy released the Strategy for Our People. This document provides the framework through which we will continue to shape our workforce into a diverse Navy Total Force – active/reserve military and Navy civilians, supported by contractors - that is the right size and that possesses the right mix of skills, applied in the appropriate manner, to best meet Navy mission requirements. Many of the efforts currently underway to recruit, develop, and retain the best people for our Navy are included in the Strategy for Our People. For example, we have executed the Chief of Naval Operations Diversity Campaign, implemented use of a Single Manpower Resource Sponsor, and stood up Task Force Life Work to focus on quality of service and quality of life, including focus on Navy families.

Challenges

The greatest challenge for our Navy is our ability to sustain our core capabilities and readiness, while building the future naval Fleet and developing the Navy Total Force that will operate, fight, and lead in a variety of challenging environments. Demands on the Navy Total Force are growing, and our ability to deliver the people with the requisite skills required to meet these demands is becoming increasingly challenging in an austere fiscal environment and ever more-competitive recruiting and retention marketplace. Today's fiscal environment mandates keen insight and ability to establish and maintain the right balance between people and the platforms and systems from which they will deliver Joint warfighting capabilities. This balance is further challenged by fierce competition with the private sector, which generally has greater flexibility in offering career incentives, and in appealing to and satisfying the needs of a diverse and changing workforce.

• <u>GWOT:</u> The commitment to supporting the GWOT comes at a cost. We are carefully monitoring the strain on our Permanent Change of Station and Temporary Duty accounts to ensure we can execute our core Navy and GWOT missions while fostering the development of our people. There is also a "cost" in terms of meeting GSA by removing Sailors from their

- primary job assignment. Currently, more than 8,000 Sailors are on these assignments, requiring others to ensure their duties in the affected commands are carried out.
- <u>Recruiting/Retention:</u> Recruiting, developing, and retaining diverse and highly capable men
 and women is imperative. Although we have been able to consistently meet recruiting goals
 for enlisted personnel, we are facing tough competition in today's employment market.
 Only three out of ten high school graduates meet the minimum criteria for military service. In
 the medical, science, and technology fields, we face obstacles in recruiting and retention as
 private sector salaries rise and fewer Americans seek degrees in these fields.

Priorities

- <u>GWOT:</u> Significant progress has been made in sourcing IA requirements, particularly in skill sets that have been stressed by high utilization. In many cases, the Navy has identified skill sets resident in lesser-stressed communities and fulfilled requirements with alternate sourcing. This flexible response, coupled with effective strategic communications to the Fleet, has reduced some uncertainty of repeat IA deployments and helped provide predictability and stability for our Sailors and their families.
 - GSA detailing is how Active Component IA requirements will be transitioned to PCS transfers, rather than a mid-tour, short-notice assignments. This new GSA detailing process will address Sailor and family needs by making assignments more predictable, enabling and rewarding volunteers, and ensuring detailer involvement in our Sailors' professional development and career progression. GSA Sailors receive administrative PCS orders to San Diego or Norfolk and Temporary Duty orders for all training and movement, including to the Navy Mobilization Processing Site. PCS allows for moving dependents to Fleet concentration areas with significant support services and infrastructure. Advancement boards will continue to stress the value of GSA and IA tours. Other benefits include advancement points, flexible advancement exam options, and joint credit. Execution of GSA detailing requires the merger of two systems currently operating in parallel – GSA and the Individual Augmentation Manpower Management (IAMM) systems. Placing GWOT billets and IA requirements into the normal detailing process will improve unit manning stability. Navy Personnel Command and U. S. Fleet Forces (USFF) will cooperate to balance Fleet readiness and GSA requirements. Until GSA detailing is fully implemented. USFF will continue to fill a portion of IA requirements through IAMM. The short-term goal of GSA detailing is to create an environment where GSA assignments are the normal business practice and IAs are the exception.
- Recruiting/Retention: Navy Recruiting Command is relentless in its pursuit of hiring the best talent in America to serve in our Navy. Their efforts are especially focused on recruiting for the Medical Corps, Chaplain Corps, Nuclear Power community, and Naval Special Warfare (NSW) community. The Navy is continually exploring new ways to recruit America's talent. Through the Medical Leads Assistance Program, our own officers serve as ambassadors for generating interest in Navy Medicine. In the NSW and Naval Special Operations communities, we provide mentors for recruits before enlistment and during training with the dual goal of improving recruiting results and ensuring applicant success at Recruit Training Center (RTC) and Basic Underwater Demolition/SEAL training (BUD/S).

To assist recruiting chaplains and nuclear trained officers, we are encouraging our personnel to "share their story" with the American public. Through the Reserve Officer

Goals Enhance Recruitment (ROGER) program, our reservist chaplains use their network of ministerial relationships to share the experiences of a Navy chaplain and provide information on how to become an active or reserve chaplain or chaplain candidate. Our nuclear trained officers share their experiences of operating a nuclear reactor and submarine through visits to college campuses and career fairs. These visits have already improved short-term Nuclear Propulsion Officer Candidate recruiting and will continue to cultivate personal relationships with faculty and university representatives to ensure long-term program health.

Recruiting and retaining the Nation's best and brightest -- sustaining the All Volunteer Force -- to meet the enduring and emerging demands of the Global War on Terror, and as outlined in the Maritime Strategy, is a top priority. We are committed to providing them great benefits, unparalleled professional and personal fulfillment, and continue to value their meaningful service to our country. We aspire to be recognized as a top 50 employer, ensuring that our personnel policies reflect the best practices of the Nation's greatest workplaces. The first step toward accomplishing this goal is to align the life and career goals of our people with the mission requirements of our Navy – current and future – in a way that provides the greatest opportunities for personal and professional development. Achieving this view of our future for sustaining the high quality all-volunteer force entails providing a robust pay and benefits package, professional and personal fulfillment and affirmation of the value we place on Sailors, their families, and their selfless service to our country.

Strategy for Our People: We developed the Manpower, Personnel & Training and Education Strategic Vision in 2006, which sets the course along which we will transform our Navy Total Force to meet the demands of the future, delivering the human component of Joint warfighting capabilities. Our Navy leadership and partners within and outside Navy have been strong supporters of our efforts to move this Vision forward to execution. This Vision, more commonly referred to as the *Strategy for Our People*, was signed by CNO Mullen in September 2007, and provides the framework through which we will fulfill our role, in support of Navy, in executing the Maritime Strategy.

Having identified the required force size, we have shifted our primary focus to "FIT", which entails force shaping (getting the right Sailors in the right positions at the right time) and stabilizing (establishing a flexible and adaptable personnel management system that proactively responds to changes in war-fighting requirements). Operationalizing the Strategy for Our People is the mechanism through which we will ultimately achieve "FIT" and reach a stabilized force. Our goal is to build upon last year's efforts with greater emphasis on those areas most critical to our role in supporting the Maritime Strategy – delivery of training, focus on jointness, language skills, regional expertise and cultural awareness, and continued Active Reserve Integration efforts, particularly in leveraging Reserve capabilities when sourcing GWOT assignments.

<u>"FIT:"</u> The requirement to deliver people to the maritime solution not only reinforces the need for continued changes in the way we do business (getting to a flexible and agile personnel delivery system that proactively responds to changes in warfighting needs); it also means taking a proactive role in the investment in our people, current and future. To maximize their potential and provide the most ready force to the Fleet and Joint Warfare Commanders, we will continue to improve upon our personnel systems, policies and development tools. Our investment will offer greater life/work balance; place the right Sailor in the right job at the right time, and prepare our 21st Century leaders to operate adeptly in our dynamic global environment. We must actively ensure that we satisfy the life and career

goals of our people in a way that meets the mission requirements of the Navy, maximizing the mutual benefit between the two – achieving "FIT".

The concept of "FIT" is centered on the idea of delivering the right Sailor to the right job at the right time. "Right Sailor" is defined as an individual with the proper mix of knowledge, skills and abilities to match the demands of the assignment – the "right job." The timing element refers to both the timeliness of that Sailor arriving in the position to support the operational unit's schedule, and the right point in the Sailor's career to provide the seniority and leadership required. We must assign Sailors to positions that draw from and enhance their talents and strengths, and emphasize continued professional growth and development, through learning and experience. Achieving "FIT" means we enhance their development in stages that align to career milestones, affording them the opportunity to progress and remain competitive for advancement and promotion.

Over the next year, we will continue to focus our efforts to achieve "FIT" by:

- Developing our people, through learning and experience, in a way that fulfills the promise of our people and aligns their careers aspirations with Navy commitments;
- Meeting our recruiting and retention challenges by modifying our programs, policies, and incentives to meet the life and career goals of our people, providing an appropriate balance between the two, while meeting the mission requirements of the Navy.

In doing so, we will set our Navy on course to be valued as a top employer and rewarding place to work, while fulfilling the promise of our people and executing the Maritime Strategy.

Conclusion

The Navy has a unique and proud history of service to our Nation and partners across the globe. Our Navy Total Force continues to evolve as required to meet the demands of an ever-changing global security environment. Whether providing "boots on ground" support to combat operations, fighting piracy, providing medical care and comfort, or protecting the seas, our people are ready to serve in the modern Navy. While our Service has evolved, our service to country and the world has fundamentally remained the same – a service ethos sealed with pride, exemplified by selflessness, and firmly rooted in honor, courage, and commitment. It is only through our people – a diverse, high-performing Navy Total Force - and the families that support us, that we will remain the world's most powerful Navy, providing America the blanket of freedom we work so diligently to protect and defend. With the continued support of the American people, we will keep our Navy strong and ready to respond to a rapidly changing and uncertain future, ensuring the welfare of our Sailors, Navy civilians, and their families.

Marine Corps Manpower Request

Introduction

The Marine Corps manpower requirements consist of active duty, reserve, and civilians dedicated to meet the demands of the GWOT. Over the past year, Marines have deployed to all corners of the globe in support of our Nation. With more than 24,000 Marine ashore throughout the U.S. Central Command's area of responsibility, Operation Iraqi Freedom and Operation enduring Freedom remain the Marine Corps largest commitment in the GWOT.

In addition to those operations, the Marine Corps also deployed forces to: support over sixty Theater Security Operation events, which ranged from small Mobile Training Teams in Central America to Marine Expeditionary Unit exercise in Africa, the Middle East, and the Pacific. The Marine Corps also took part in civil-military and humanitarian assistance operations such as New Horizons events in Nicaragua, land mine removal training in Azerbaijan, and disaster relief in Bangladesh after a devastating cyclone.

Major Force Structure Changes Affecting Manpower Request

To meet the demands of the GWOT, as well as the unforeseen crises that will inevitably arise, our Corps must be sufficiently manned, well trained, and properly equipped. Like the Cold War, the GWOT is a long-term struggle that will not be measured by the number of near-term deployments or rotations; it is this long-term view that informs our priorities and plan for growth.

To fulfill our obligations to the Nation, the Marine Corps will grow its personnel end strength to 202,000 Active Component Marines. This increase will enable your Corps to train to the full spectrum of military operations and improve the ability of the Marine Corps to address future challenges of an uncertain environment. Our growth will enable us to recover our ability to respond in accordance with timelines outlined in Combatant Commander war plans — thereby, reducing operational risk.

As we grow, we will develop all the elements of our Marine Air Ground Task Force in balanced manner to meet the diverse challenges of an uncertain future. This growth includes:

- An increase in our end strength to 202,000 Marines;
- Adequate expansions of our infrastructure to provide for our Marines, their families, and their equipment; and
- The right mix of equipment for the current and future fight.

This additional end strength will result in three Marine Expeditionary Forces — balanced in capacity and capability. The development of the Marine Corps force structure has been the result of a thorough and ongoing process that supports the Combatant Commanders and accomplishes our Title X responsibilities. The process addresses all pillars of combat development (Doctrine, Organization, Training, Materiel, Leadership and Education, Personnel, and Facilities) and identifies our required capabilities and the issues associated with fielding them. The most recent assessment revealed a requirement to front-load structure for recruiters

and trainers to support our personnel growth and a phased introduction of units balanced across the Marine Air Ground Task Force.

In FY07, we stood up two infantry battalions: 1st Battalion, 9th Marines and 2nd Battalion, 9th Marines. We also added capacity to our combat engineer battalions and air naval gunfire liaison companies. During FY08, the Marine Corps stood up 3rd Battalion, 9th Marines, additional Explosive Ordnance Disposal teams, Reconnaissance Platoons, Military Police Companies and a Helicopter Squadron. Our plan will gradually improve the deployment-to-dwell ratio of some of our other habitually high operational tempo units — such as military police, unmanned aerial vehicle, helicopter, air command and control, combat service support, and explosive ordnance disposal units.

Key Manpower Issues

Increasing the AC end strength of the Marine Corps to 202,000 will enable the Marine Corps to build capacity to fight the GWOT and to better train and respond to other crisis. It will also go a long way toward reducing the strain on the individual Marines and the institution by helping the Marine Corps meet the Secretary of Defense's goal of 1:2 deployment-to-dwell ratio.

To meet the demands of the GWOT and other crises that arise, the Marine Corps must be sufficiently manned, trained, and equipped. Like the Cold War, the GWOT is a continuing struggle that will not be measured by the number of near-term deployments or rotations. To meet these challenges, the Marine Corps must ensure that its personnel policies, organizational construct, and training are able to operate at a "sustained rate of fire."

The current deployment cycle requires commanders to focus on those skill sets required to accomplish the mission in Iraq and Afghanistan. This emphasis, along with the added requirement for individual augments, training team requirements, and the need to deploy many units for missions outside of their normal functions, has caused deterioration in other skill sets. The result of this strain is limitation in the Marine Corps' ability to provide trained forces to project power in support of other contingencies. Deployment cycles must not only support training for irregular warfare, they must also provide sufficient time for recovery, maintenance, and training for other contingency missions.

An equally important factor in sustaining a viable force is continuing to recruit and retain qualified young men and women with the right character, commitment, and drive to become Marines. With over 70 percent of the end strength increase comprised of first-term Marines, both recruiting and retention efforts will be challenged. A major part of this effort will involve increased funding for both the enlistment bonus and the selective reenlistment bonus programs. The Marine Corps needs the continued strong support of Congress to achieve continued success.

While maintaining DoD quality standards, the Marine Corps continues to recruit the best of America's youth The Marine Corps forecast that both active and Reserve recruiting will remain challenging in FY07, particularly when viewed through the lens of accession missions to meet the increased end strength of the Marine Corps. The Marine Corps will need the continued support of Congress for strong enlistment bonuses and other recruiting programs, such as advertising, which will be essential in meeting these challenges.

Retention is the other important part of building and sustaining the Marine Corps. In FY08, the Marine Corps reenlisted 31% of the first term and 70% of the career force eligible populations, compared to the 22% first term and 65% career force reenlistment rates achieved in FY07.

For FY08, the Marine Corps exceeded the FY07 retention goals. The Marine Corps' continuing success can be largely attributed to two important enduring themes. First, Marines want to stay Marine because of the superb leadership in our officer and staff noncommissioned officer ranks and their desire to remain part of a "band of brothers." Second, the Marine Corps' wise use of the selective reenlistment bonus program (SRBP) that the Congressional leadership has provided.

Marines' leadership and technical skills are very marketable to lucrative civilian employment opportunities. To keep the most qualified personnel, the Marine Corps must increase SRBP funding in order to support retaining the right grade and skill sets for its growing force. Not only will the Marine Corps have to retain more first-term Marines, but it will also have to increase the number of career Marines reenlisting for second and third times. This will require it to add additional funding toward key military occupational specialties such as reconnaissance, intelligence, explosive ordnance disposal, and military police to name just a few in the career force so that we have their leadership and skill sets.

Reserve Component

The Marine Corps' effort in the GWOT has been a Total Force effort, with the Reserves once again performing with grit and determination. Recent policy changes within the DoD will allow the Reserve forces as they were structured to be employed - to augment and reinforce the AC forces. To this end, the Marine Corps goal is to obtain a 1:5 deployment-to-dwell ratio within the RC.

The current authorized RC end strength of 39,600 Selected Reserve Marines is adequate. The Marine Corps continuously reviews the make-up and structure of the Reserve in order to ensure the right capabilities reside within the Marine Forces Reserve units and the Individual Mobilization Augmentee program across the force. Finally, as the active force increases in size, the reliance on the Reserve forces should decrease - this will allow the Marine Corps the ability to achieve the desired deployment-to-dwell ratio.

Civilian Manpower

Since 2004, approximately 3,150 military-to-civilian conversions have provided a valuable source to send additional Marines back to the operating force in support of our warfighting initiatives and to help reduce stress. This highly successful program is continuing, and there were an additional 961 military-to-civilian conversions planned for FY08 and FY09. The Marine Corps will continue to pursue sensible conversions and remove Marines from billets that can utilize civilians. Also, the Marine Corps is committed to successful implementation of the National Security Personnel System. The National Security Personnel System will enable the Marine Corps to better support the warfighter by providing a civilian workforce that is flexible, accountable, and aligned to the Marine Corps mission.

Air Force Manpower Request

Introduction

This section describes Air Force manpower requirements in terms of active military, U.S. Air Force Reserve, Air National Guard, and civilian manpower. Air Force manpower needs are derived from the force structure estimate to accomplish the mission within the scope of the National, political, and military strategies. In that light, this section identifies wartime manpower requirements, requested manpower strengths for the budget years, and major changes by component.

The FY09 President's Budget includes a decrease of 12,000 in active duty military from 328,600 in FY08 to 316,600 in FY09. This decision to reduce end strength sought to halt the intolerable risk of continued deferment of fielding modern battle systems, shifting more risk to the increasingly costly yet precious personnel accounts, and in turn, to our Total Force.

Key Manpower Issues

The Air Force is currently programmed at 328.6K at the end of FY08 and is on a glide slope to programmed 316.6K at the end of FY09. The Air Force was directed by the FY08 House Conference Committee to submit a Total Force End Strength Report on new and emerging missions and how it would resource it from existing budget to all Defense related committees. This report was submitted with the FY09 President's Budget.

In keeping with Title 10 section 129a, the justification for military-to-civilian conversions is based on converting non-military essential positions to civilian. The Defense Manpower Review Process also resulted in military-to-civilian conversions for various Defense Agencies.

Reserve Component

- <u>Air National Guard (ANG)</u>: The ANG military end strength is 106,700 for FY08 and FY09 unchanged between the two years. The ANG went through a major mission restructure in the FY08 budget, which is currently being implemented. In FY08 and FY09 the ANG received increases in full-time resources due to mission requirements, but maintained the same military end strength.
- <u>Air Force Reserve (USAFR)</u>: USAFR military end strength in the FY09 President's Budget is 67,400 in FY09. The USAFR programmed end strength will decrease by 100 spaces between FY08 and FY09. The majority of this decrease is due to AF Transformation initiatives to draw down end strength for investment in future capabilities and to Training Pipeline reductions. The 100 space decrease comprises the remaining reductions of these two initiatives, started in FY08, which were largely programmed in the FY07 APOM.
- <u>The Individual Mobilization Augmentee (IMA) Program:</u> This program provides individual military USAFR assets to AC units to function as a total force multiplier. IMAs augment the AC structure of the Department of Defense or other Departments or Agencies of the U.S.

Government, to support mobilization requirements, contingency operations, operations other than war, or other specialized or technical requirements to meet National Defense, strategic national interest, and domestic objectives.

• <u>Full-Time Support Programs</u>: Reserve and ANG AGR personnel are Reservists and Guardsmen on active duty for periods in excess of 179 days who provide full-time support to the RC and are paid from Reserve and Air National Guard personnel appropriations. AGRs work at unit and headquarters levels. AGRs who serve on the staff of AC headquarters organizations are referred to as being on a statutory tour. They are responsible for RC management, policy, planning, programming, and training; assist in developing and implementing Reserve forces policies, procedures, and programs; and assist in organizing, administering, recruiting, instructing, and training the RC.

AGRs assigned to unit level, Air Reserve Technicians (ARTs), and Technicians serving in dual status, provide full-time support at the combat and combat support unit levels. ARTs and Technicians are civil service civilians who also provide full-time, day-to-day support to a Reserve or ANG unit and are available to enter active duty should their unit be mobilized. As members of the USAFR or ANG, AGRs and ARTs are integral members of their unit and participate in all military training and duty in their unit.

Civilian Manpower

Civilians comprise approximately one third of Air Force manpower. Air Force civilian end strength includes ANG and USAFR Military Technicians, who serve their units as civilians during peacetime and as uniformed members upon mobilization. The civilian work force supports the Air Force mission in numerous capacities. All major commands and organizations depend on the contributions of civilian employees to accomplish the mission, with civilians assigned to virtually every Air Force installation worldwide, particularly in base operating support functions and real property maintenance.

The FY09 Presidents Budget includes an increase of 2,419 in programmed civilian FTEs from 168,894 in FY08 to 171,313 in FY09. Through the Program Budget Decision process U.S. Civilian end strength has increased due to the aggressive effort by the Defense Department to reduce/eliminate the use of military personnel in non military essential position and replace them with either U.S. Civilians or contractors. Military are then realigned to warfighting skills reducing the stress on high demand military skill sets.
